Food Safety Certification

MODULE 9

Module 9: Pests and Pest Control:

Understanding preventative measures need to be in place and corrective actions need to be initiated immediately when pests or evidence of pest activity are observed at store level.

MODULE 10

Module 10: Personnel – Health and Hygiene:

Understanding the importance of hand washing: Good personal hygiene is a protective measure against foodborne illness.

MODULE 11

Module 11: Recall: Covers Food Recall Notices which are issued when a food is identified as being (or potentially being) contaminated with a pathogen, a chemical (including an undeclared allergen) or foreign material that may cause harm to consumers.

MODULE 12

Module 12: HACCP vs HACCP-based: A look into HACCP, good food handling practices with additional documentation (i.e. say what you do, do what you say and prove it).

MODULE 13

Module 13: Good Food Handling Practices – Total Store:

Provides a summary of the information presented in the FoodWise Food Handler Certification Course along with additional information related to implementation at store level.

Other Information

Course Content: Course content is based on module reading. The workbook is available in the online course which can be downloaded and used as a Food Safety reference in your store. Accommodations for special needs can be made when requested.

Language Available: English and French

Course Length: 8 hours. Participants have 30 days to complete the module.

Technical Requirements: The course is available in an online learning platform.

Special Requirements: If you have an identified learning disability or language barrier, RCC can make special accommodations when necessary.

Certification Exam: The multiple-choice examination component of the FoodWise Program is the only assessment that the participant will partake in to become certified. The examination will consist of 50 multiple-choice questions. The exam will be proctored virtually. Accommodations for special needs can be made when requested.
